Industries with the highest levels of employment in Chemists:

	Percent of employment	Hourly mean	Annual mean
Chemical and allied manufacturing	14.90%	\$14.04	\$39,930
Computer and peripheral equipment	13.44%	\$13.67	\$51,570
Automobile, engineering and metal workers	12.04%	\$12.04	\$24,024
Electrical equipment, appliance and component manufacturers	11.75%	\$11.75	\$23,500
Including those with the highest average annual wage and the lowest annual wage			
	Percent of employment	Hourly mean	Annual mean
Computer and peripheral equipment	4.25%	\$2.40	\$5,360
Automobile, engineering and metal workers	4.20%	\$2.40	\$5,360
Electrical equipment, appliance and component manufacturers	3.94%	\$2.00	\$4,290
All industries	0.94%	\$2.00	\$4,290

Industries for Chemists:

	Percent of employment	Hourly mean	Annual mean
Computer and peripheral equipment	2.74%	\$13.13	\$27,500
Automobile, engineering and metal workers	2.74%	\$13.13	\$27,500
Electrical equipment, appliance and component manufacturers	2.74%	\$13.13	\$27,500
Including those with the highest average annual wage and the lowest annual wage			
	Percent of employment	Hourly mean	Annual mean
Computer and peripheral equipment	0.13%	\$55.01	\$114,410
Automobile, engineering and metal workers	0.13%	\$55.01	\$114,410
Electrical equipment, appliance and component manufacturers	0.13%	\$55.01	\$114,410
All industries	0.13%	\$55.01	\$114,410

Annual mean wage of chemists, by state, May 2021
